

U.S. Congressman Randy Hultgren Visits Keflex

We recently had the privilege to host a visit by our U.S. Congressman Randy Hultgren. The Congressman is shown during his visit with our Company President Kevin Kelly (Above Left).

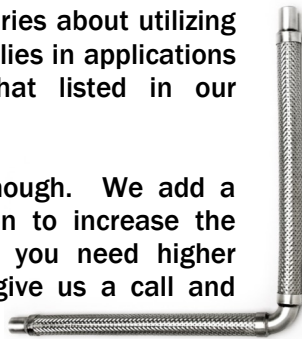

He was also able to spend time touring the Keflex manufacturing area with our Manufacturing Engineering Manager Shane Schwarz (Above Right).

It was a pleasure for all the employees who had a chance to meet and spend time with the Congressman.

Question of the Month

We've recently been fielding inquiries about utilizing our Ke-Loop braided hose assemblies in applications where the pressure exceeds that listed in our literature.

The answer to that is simple enough. We add a second braid to the hose section to increase the pressure rating of the loop. If you need higher pressure ratings on your loops, give us a call and we'll get one designed for you.

Keflex Kudos - The \$50K Club

This shout out goes to the team at **Mechanical Sales** in the great Pacific NW for landing another fantastic job for 2013. They just brought in a wastewater treatment plant project and are doing their part to make 2013 a banner year for Keflex. Way to go! - TR

Welcome Aboard!

Hydro-Air Systems
Albuquerque, NM

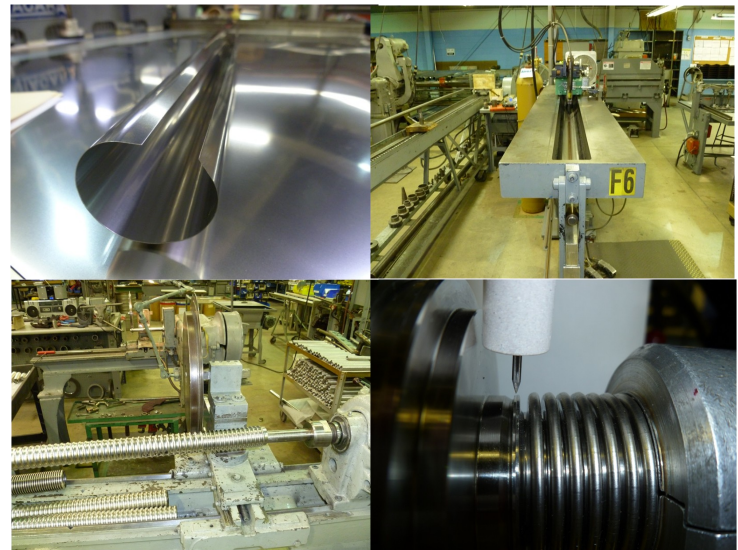

The **BIG GREEN TRAIN** just keeps chugging along and now we'd like to welcome aboard the team at **Hydro-Air Systems in Albuquerque, NM.** Welcome to the Keflex team!

Speaking of Factory Visits.....

For those of you who have never had the chance to see how the products are made, the glaciers have finally thawed here and if your travels take you in the Chicago vicinity we'd be happy to have you visit the factory and see us in action.

This goes for your customers too!
