

WELCOME ABOARD

A hearty “WELCOME ABOARD” to the team at McDaniel and Company.

McDaniel and Company work with a number of complimentary products for the HVAC industry and have been in business for over 40 years.

They will be covering the southern half of Indiana for Keflex and are based in Indianapolis.

AHR EXPO 2015 RECAP

It was another great show for us! We are already looking forward to next years’ show in Orlando! It was great to get a chance to see everyone at the booth. We’ve got some lofty goals for the balance of the year and the show got us off to a great start.

Thanks again to everyone who stopped by the booth.

SILVER SERIES RUBBER EXPANSION JOINTS

We have added these competitively priced expansion joints to the price list and have also added the submittals to our website. While these rubber joints are rated for only a slightly lower psi and temperature, they are suitable for many common applications in the marketplace and offer a reduced lead time in most cases. Contact

Stephanie if you have any questions about the Silver Series.

EXPANSION LOOPS

We’ve added some new features to our loops. The new “H” option includes a Hanger Bracket on the elbow and a Drain Port. The hanger bracket will make these easy to install loops even easier to install while the drain port will allow for simple maintenance as well.

Submittals have been added to our website. We will be updating the literature and provide pricing very soon. Contact Stephanie if you have any questions on this new option for our loops.

INVENTORY ITEMS

As a reminder we do from time to time have items in stock that could have come from overruns or were ordered in error. We are always ready

to “Make a Deal” on these items. Contact Patsy or Stephanie for a list of available items.

3150 SERIES

The general purpose 150 PSI series of industrial bellows has been released. There is a new webpage and the brochure is available for download

3150 Series
General Purpose 150 PSI Expansion Bellows
